

PhD position available in Polymer Science

A PhD position in Polymer Science is available in the Advanced Multiphase Polymers group (PhD supervisor Dr. Jon Maiz) at the Basque Center for Macromolecular Design and Engineering, POLYMAT Fundazioa (www.polymat.eu).

The aim of the project is to study the crystallization and self-assembly of polymeric materials designed for organic electronic devices.

Applicants must have a BSc and MSc in one of the following disciplines: Physics, Chemistry or Materials Science/Engineering, or similar. Previous experience in both polymer science and organic electronics field is highly desirable.

Good command of written and spoken English is a must (if preselected, a telephone/Skype interview will be carried out in English before any other appointment is made). The selected candidate is expected to conduct research, write papers, and deliver a PhD thesis.

Applications should be addressed to Dr. Jon Maiz and sent via email in **one single PDF** to jon.maiz@polymat.eu before the end of May 2018 (applications will be considered upon arrival) including:

- (i) A cover letter highlighting the interest in the position.
- (ii) Curriculum Vitae.
- (iii) A short description of previous research (1-2 Pages).
- (iv) Names and contact addresses (e-mail) of two academic referees.

POLYMAT has obtained the 'HR Excellence in Research award'. The award reflects our commitment to continuously improve our human resource policies in line with the European Charter for Researchers, the Code of Conduct for the Recruitment of Researchers and our commitment to achieve fair and transparent recruitment and appraisal procedures.

Please note that *because of the large number of applications expected*, we will not be able to give individual *feedback* to unsuccessful applications.
