

MALDI TOF Technician

Basque Center for Macromolecular Design and Engineering-POLYMAT Fundazioa is a research center based in Donostia-San Sebastian associated to the University of the Basque Country. It is devoted to use-inspired fundamental research on synthesis, assembly and processing of polymers.

POLYMAT invites applications for a part-time position as MALDI-TOF Technician in the polymer characterization platform Area.

Key Tasks & Responsibilities

The candidate will be in charge of a BRUKER Autoflex MALDI-TOF spectrometer. This position may also require the participation of the candidate in research projects and development of new projects related to this technical platform. Experience in other polymer/material characterization methods will be considered.

Knowledge, Skills & Abilities

We are looking for a motivated and experienced MALDI-TOF Technician with the following profile:

- BS,MS or PhD in Science (preferably physics, chemistry or engineering).
- Experience in polymer characterization and mass spectrometry.
- Experience in research laboratories, equipment and software operation will be valuable.
- Self-motivated with willingness to work effectively within a multi-disciplinary and international team.

We offer an excellent opportunity for professional development and competitive salary in accordance with the level and responsibility of the position.

Resumes can be sent to the following e-mail address: info@polymat.eu

Please note that *because of the large number of applications expected*, we will not be able to give individual *feedback* to unsuccessful applications.
